(unaudited)

1 Reporting entity and going concern

Emerald Bay Energy Inc. (the “Company”) was incorporated under the Business Corporations Act of Alberta on May 9, 1997 and is listed on the TSX Venture exchange. The Company is engaged in the exploration for and development of petroleum and natural gas properties principally in Alberta and Texas and is developing a lateral drilling technology. The Company is listed on the TSX Venture Exchange under the symbol “EBY.V”. The Company’s registered head office is located at #1A, 4015 – 1 Street South East, Calgary, Alberta, Canada T2G 4X7.

At March 31, 2013, the Company had not yet achieved profitable operations, had accumulated a deficit of \$14,001,419 since its inception (December 31, 2012 - \$13,778,755), had negative cash flows from operations of \$46,792 (December 31, 2012 - \$2,176,975) and had a working capital deficiency of \$3,378,047 (December 31, 2012 - \$3,077,609) (defined as current assets less current liabilities), and expects to incur further losses in the development of its business. The ability to continue as a going concern is dependent on obtaining continued financial support, completing public equity financing, or generating profitable operations in the future. Management is committed to raising additional capital to meet its exploration and operating obligation, however, additional equity financing is subject to the global financial markets and economic conditions, which have recently been disrupted and are volatile, and the debt and equity markets, which have been distressed, particularly for junior petroleum and natural gas companies. All of these factors, together with weak natural gas prices and the current unstable economic conditions, indicate the existence of material uncertainty related to events or conditions that may cast significant doubt as to whether the Company can continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business. These financial statements do not reflect the adjustments to the carrying value of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications that would be necessary if the going concern assumption was not appropriate. Any adjustments necessary to the financial statements if the Company ceases to be a going concern could be material.

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

2 Basis of presentation

The interim condensed financial statement have been prepared in accordance with International Accounting Standards (“IAS”) 34 – “*Interim Financial Reporting*” as issued by the International Accounting Standards Board (“IASB”) using the accounting policies and methods of computation disclosed in the Company’s audited financial statements for the year ended December 31, 2012, except for those disclosed in note 3. These interim condensed financial statements should be read in conjunction with the audited financial statements for the year ended December 31, 2012 and exclude certain disclosures required to be included in annual financial statements.

These interim financial statements have not been reviewed by the Company’s external auditors and are dated May 30, 2013.

3 Changes in accounting policy

Effective January 1, 2013, the Company adopted the following standards and amendments as issued by the IASB. The Company has reviewed its methodology and disclosure for each standard and has concluded that no additional disclosure or changes are required:

IFRS 10 – “Consolidated Financial Statements”, which builds on existing principles and standards and identifies the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company.

IFRS 11 – “Joint Arrangements”, which establishes the principles for financial reporting by entities when they have an interest in arrangements that are jointly controlled.

IFRS 12 – “Disclosure of Interest in Other Entities”, which provides the disclosure requirements for interests held in other entities including joint arrangements, associates, special purpose entities and other off balance sheet entities.

IFRS 13 – “Fair Value Measurement”, which defines fair value, requires disclosure about fair value measurements and provides a framework for measuring fair value when it is required or permitted within the IFRS standards.

IAS 27 – “Separate Financial Statements”, which provides amendments to IAS 27 to coincide with the changes made in IFRS 10, but retains the current guidance for separate financial statements.

IAS 28 – “Investments in Associate and Joint Ventures”, which revised the existing standard and prescribes the accounting for investments and sets out the requirements for the application of the equity method when accounting for investments in associates and joint ventures.

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

IFRS 7 – “Financial Instruments: Disclosures” and IAS 32 “Financial Instruments: Presentation”, provides amendments to the previously issued IFRS 7 “Financial Instruments: Disclosures” and IAS 32 “Instruments: Presentation”, to provide clarity over the current offsetting model and develop common disclosure requirements to enhance the understanding of the potential effects of offsetting arrangements. Amendments to IFRS 7 are effective on January 1, 2013 with required retrospective application and early adoption permitted. Amendments to IAS 32 are effective on January 1, 2014 with required retrospective application and early adoption permitted.

IAS 1 – “Presentations of Items of OCI: Amendments to IAS 1 Presentation of Financial Statements”, which provides stipulates for the amendment of the presentation of net earnings and OCI and also requires that items are grouped within OCI based on whether the items may be subsequently reclassified to profit or loss.

4 Equity investment in PRI

The Company continued to have a 25% ownership interest in Production Resources Inc (“PRI”) of 25%. The Company has accounted for the investment using the equity method.

The investment in PRI as at March 31, 2013 is as follows:

	CDN \$
Net investment, December 31, 2011	459,078
Proportionate share of income for the period	109,228
Net investment, December 31, 2012	568,306
Proportionate share of income for the period	55,928
Net investment, March 31, 2013	624,234

6 Exploration and evaluation and other intangible assets

	E&E assets \$
Balance, December 31, 2011	-
Additions	397,668
Balance, December 31, 2012	397,668
Additions	115,595
Balance, March 31, 2013	513,263

Exploration and evaluation (“E&E”) assets consist of the Company’s exploration projects which are pending the determination of technological feasibility and commercial viability. As at March 31, 2013, the Company has incurred an amount of \$513,263 on E&E expenditures (December 31, 2012 - \$397,668). The additions represent the acquisition of undeveloped land and drilling activity within Texas. These E&E assets will be transferred to property and equipment when technological feasibility and commercial viability have been established. As at March 31, 2013, the Company performed an assessment of the indicators of impairment for its E&E properties. Based on the assessment, the Company did not record an impairment charge.

7 Decommissioning obligations

The Company’s decommissioning obligations result from its ownership interest in oil and natural gas assets including well sites and gathering systems. The total decommissioning obligation is estimated based on the Company’s net ownership interest in all wells and facilities, estimated costs to reclaim and abandon these wells and facilities and the estimated timing of the costs to be incurred in future years. The Company has estimated the net present value of the decommissioning obligations to be \$171,232 as at March 31, 2013 (December 31, 2012 - \$182,278) based on an undiscounted total future liability of \$172,902 (December 31, 2012 - \$184,998). These payments are expected to be made over the next 20 years. The obligations have been calculated using an inflation rate of 2% and a discount factor, being the risk-free rate related to the liability, of 2.24% (December 31, 2012 – 2% and 2.17%, respectively).

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

8 Bank loan

On March 20, 2012, the Company terminated the Revolving Loan held with a Chartered Canadian Bank (the "Lender"), which had a balance of \$1,500,000, through the sale of certain oil and gas assets. An amending fee of \$10,000 was paid to the Lender, and additionally, a \$50,000 payable for a previous amendment was also paid to the Lender. Total interest incurred pursuant to the Revolving Loan during the year ended December 31, 2012 was \$20,980.

On June 18, 2012, the Company terminated the Non-revolving loan with the Lender, which had a balance of \$1,125,000, through the acquisition of a related party loan (note 9). The Company incurred professional fees of approximately \$120,000 to payout the Non-revolving Loan. Total interest incurred pursuant to the Non-revolving Loan during the year ended December 31, 2012 was \$46,123.

Security for the loans consisted of a \$10,000,000 Debenture with a floating charge over all assets of the Company with a negative pledge and undertaking to provide fixed charges on the Borrower's major producing petroleum properties at the request of the bank. The bank also required the Company to submit to them certain reports and to maintain certain covenants.

9 Related party loan

On June 15, 2012, a corporation owned by a related party who has a common significant shareholding (the "Lender") advanced \$1,500,000 to the Company under a loan agreement (the "Loan Agreement") with a maturity date of August 15, 2013. The proceeds of the loan were used primarily to repay the Non-revolving Loan with the remaining proceeds used for general working capital. Interest on the loan is 10% per annum, payable monthly, on the outstanding principal amount. Pursuant to the Loan Agreement, the Company was required to make a principal repayment in the amount of \$500,000 on or before August 15, 2012, which was amended to require a principal repayment of \$300,000 due on November 30, 2012. The Company fulfilled this requirement through a cash repayment of \$133,845 and through the transfer of certain of its US assets to the related party at a deemed value of \$166,155 (note 5).

The Company may, at any time, repay the loan in full without notice or penalty. If the Company is in default of the requirements included in the Loan Agreement or the Lender believes the Company's ability to repay the loan is impaired, the Lender may demand repayment of the loan or accelerate the date for payment. During the three months ended March 31, 2013, pursuant to the loan, the Company had incurred interest of \$30,000 (December 31, 2012 - \$74,083).

Pursuant to the Loan Agreement, the Company issued to the Lender 5,000,000 share purchase warrants. Each warrant is exercisable into one common share of the Company at a price of \$0.10 per common share until the expiry date of August 15, 2013. The warrants have been valued at

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

\$147,195 (note 11(c)) and have been treated as a transaction cost, and accordingly have been net against the principal balance of the loan, which is being accreted back up to the principal balance at the maturity date. The accretion is recorded as a non-cash finance expense in the profit or loss.

	Related party loan
	\$
Receipt of loan	1,500,000
Transaction costs	(147,195)
Repayment of principal portion	(300,000)
Accretion of transaction costs	68,760
Balance, December 31, 2012	1,121,565
Accretion of transaction costs	31,097
Balance, March 31, 2013	1,152,662

Security for the loan consists of a \$1,500,000 promissory note plus interest at the rate of 10% per annum, compounded monthly, a General Security Agreement in favour of the Lender to include a specific assignment of production proceeds, and security over the US assets of the Company. The Lender has required the Company to submit to them certain reports including monthly production reports.

10 Convertible related party debt

On January 1, 2012, the Company entered into a loan agreement (the "Loan Agreement") with a corporation owned and controlled by a party who is also a significant shareholder of the Company (the "Lender") whereby the Company received a \$150,000 USD loan with a maturity date of December 31, 2012. On January 1, 2013, it was mutually agreed upon between the Lender and the Company to extend the loan under the same terms to December 31, 2013. The proceeds of the loan were used to continue the Company's exploration program in Texas. Interest on the loan is 12% per annum, payable monthly, on the outstanding principal amount and compounds monthly. During the three months ended March 31, 2013, pursuant to the loan, the Company had accrued interest of \$4,581 (December 31, 2012 - \$21,643).

Security for the loan consists of a \$150,000 promissory note and monthly production from certain Texas assets equivalent to the principal portion of the loan and any unpaid interest.

At the option of the Lender, and subject to regulatory approval, the entire principal amount, or any portion outstanding, may be converted to shares in the Company with a discount of 25% to the market trading price at the time of conversion, at any time during the term. Accordingly, on the issuance and extension, the loan was split between the liability and the conversion feature, which was recorded on the statement of financial position as a derivative financial liability. The liability portion was determined by subtracting the fair value of the conversion feature from the

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

principal amount of the loan. At January 1, 2013, the \$150,000 loan resulted in \$20,000 being classified as a liability (January 1, 2012 - \$20,000) and \$130,000 being classified as a derivative financial liability (January 1, 2012 - \$130,000). The fair value of the conversion feature is estimated at every statement of financial position date with changes in the fair value estimate between periods recognized in the profit or loss as finance expense. The liability portion is measured at amortized cost and is accreted up to the principal balance at the maturity date. The accretion is expensed as a finance expense in the statement of comprehensive loss.

At December 31, 2012, the loan had matured and the initial derivative liability that was recognized was removed and recorded as a gain on the derecognition of the derivative financial liability in the statement of comprehensive loss.

The following table summarizes the accounting of the promissory note in USD:

	Liability	Derivative Financial Liability	Total
	\$	\$	\$
Receipt of debt	20,000	130,000	150,000
Accretion of debt	130,000	-	130,000
(Gain) on derivative financial liability	-	(130,000)	(130,000)
Balance, at December 31, 2012	150,000	-	150,000
Renewal of debt	(130,000)	130,000	-
Accretion of debt	32,500	-	32,500
(Gain) on derivative financial liability	-	(35,333)	(35,333)
Balance, at March 31, 2013	52,500	94,667	147,167

The fair value of the derivative financial liability is determined using the Black-Scholes valuation model and the following assumptions were used:

	March 31, 2013	January 1, 2013	January 1, 2012
Risk-free interest rate	1.02%	1.17%	1.00%
Expected life (years)	0.75 year	1 year	1 year
Expected volatility	114.47%	165.11%	164.52%
Market price	0.06	0.06	0.03
Conversion price	0.045	0.045	0.023

- (i) On February 17, 2012, the Company completed a private placement ("Placement A"), issuing 14,240,000 units. Each unit under Placement A was issued at \$0.05 for total proceeds of \$712,000. Each unit consists of one common share of the Company and one share purchase warrant ("Warrant A"). Each Warrant A entitles the holder to purchase one additional common share of the Company at \$0.10 per share, exercisable for 1 year from the original issue date. The Company has allocated \$346,581 of the unit value to warrants (note 11(c)). On January 28, 2013, the Company received approval to extend the expiry dates for share purchase warrants with an original expiry date of February 17, 2013 to expire on August 17, 2013. All other terms and conditions of the share purchase warrants have remained the same. The original fair value of the share purchase warrants has been maintained.
- (ii) On July 5, 2012, the Company completed a private placement ("Placement B"), issuing 4,841,730 units. Each unit under Placement B was issued at \$0.07 for total proceeds of \$338,921. Each unit consists of one common share of the Company and one share purchase warrant ("Warrant B"). Each Warrant B entitles the holder to purchase one additional common share of the Company at \$0.10 per share, exercisable for 1 year

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

from the original issue date. The Company has allocated \$187,838 of the unit value to warrants (note 11(c)).

- (iii) On October 25, 2012, the Company completed a private placement (“Placement C”), issuing 29,680,000 units. Each unit under Placement C was issued at \$0.05 for total proceeds of \$1,484,000. At December 31, 2012, \$80,000 of the proceeds had yet to be received from a subscriber of the Placement C, of which \$40,000 was collected during the three months ended March 31, 2013. Each unit consists of one common share of the Company and one share purchase warrant (“Warrant C”). Each Warrant C entitles the holder to purchase one additional common share of the Company at \$0.10 per share, exercisable for 1 year from the original issue date. The Company has allocated \$668,362 of the unit value to warrants (note 11(c)).
- (iv) Pursuant to Placement A, Placement B and Placement C, the Company incurred \$155,586 in cash share issue costs, of which \$83,572 was allocated to share capital and \$72,014 was allocated to warrants. Under Placement A and Placement C 650,000 and 2,463,000 finders options were issued, respectively, valued at \$93,657 (note 11(e)), of which \$50,739 was allocated to share capital and \$42,918 was allocated to warrants.

c) Warrants

Warrants to acquire common shares outstanding at March 31, 2013 are as follows:

	Number of warrants issued and exercisable	Amount \$	Weighted average exercise price \$	Weighted average Remaining life (years)
Balance, December 31, 2011	19,647,701	126,644	0.10	0.41
Share purchase warrants issued (note 11(b)(i), (ii) and (iii))	48,761,730	1,202,781	0.10	0.59
Share issue costs (note 11(b)(iv))	-	(114,932)	-	-
Share purchase warrants issued (note 9)	5,000,000	147,195	0.10	0.62
Expiry of share purchase warrants	(13,413,701)	(86,967)	0.10	-
Balance, December 31, 2012	59,995,730	1,274,721	0.10	0.55
Expiry of share purchase warrants	(4,600,000)	(29,262)	0.10	-
Balance, March 31, 2013	55,395,730	1,245,459	0.10	0.46

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

The fair value of the share purchase warrants granted during the year ended December 31, 2012 were estimated at the grant date using the Black-Scholes option pricing model and have been credited to warrants within shareholders' equity. A weighted average of the assumptions used in the calculation is noted below:

	2012
Risk-free rate	1.12%
Expected life	1.01 years
Expected volatility	172.05%
Fair value per warrant	\$0.025

Volatility was determined based on the Company's historical share prices.

d) Stock options

The Company established a share option plan (the "Plan") for the benefit of officers, directors, employees and consultants of the Company. Under the Plan, the number of common shares to be reserved and authorized for issuance pursuant to options granted under the Plan cannot exceed 10% of the total number of issued and outstanding shares of the Company. The term, the vesting period and the exercise price are determined at the discretion of the Board of Directors. However, the maximum option term shall not exceed five years.

During the three months ended March 31, 2013, there were no stock option grants, cancellations, exercises, or expiries. The following table summarizes information about the Company's stock options outstanding at March 31, 2013:

	March 31, 2013		December 31, 2012	
	Number of options	Weighted Average Exercise price \$	Number of options	Weighted Average Exercise price \$
Stock options, beginning of period	7,380,000	0.10	7,680,000	0.10
Expired	-		(300,000)	(0.10)
Stock options outstanding, end of period	7,380,000	0.10	7,380,000	0.10

The total stock options outstanding at March 31, 2013 are as follows:

Exercise prices (\$)	Options outstanding	Weighted average remaining term (years)	Weighted average exercise price (\$)
0.10	7,380,000	2.94	0.10

As at March 31, 2013, all outstanding options have vested and are exercisable.

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

There was no share-based payment expense recognized during the three months ended March 31, 2013 (March 31, 2012 - \$nil).

e) Finders Options

The following table summarizes information about the Company's Finder Options outstanding at March 31, 2013:

	March 31, 2013		December 31, 2012	
	Number of	Weighted Average	Number of	Weighted Average
	options	Exercise price	options	Exercise price
		\$		\$
Finders Options, beginning of period	3,113,000	0.05	470,000	0.05
Granted (note 11(b)(iv))	-	-	3,113,000	0.05
Exercised (note 11(b))	-	-	(470,000)	0.05
Expired	(650,000)	(0.05)	-	-
Finders Options outstanding, end of period	2,463,000	0.05	3,113,000	0.05

During the year ended December 31, 2012, the Company issued 3,113,000 Finders Options, respectively, to the those who facilitated Placement A and Placement C (note 11(b)(iv)). Each Finders Option granted pursuant to Placement A and Placement C is exercisable into one unit consisting of one common share and one common share purchase warrant ("Finder Warrant") of the Company at \$0.05 per unit. Each Finder Warrant is exercisable into one common share of the Company at \$0.10 per common share. The Finders Options expire one year from the original grant date.

The Finders Options were valued at an aggregate of \$93,657 (note 11(b)(iv)). The fair value of the Finders Options granted is estimated as at the grant date using the Black-Scholes option pricing model. The assumptions used in the calculation are noted below:

	2012
Risk-free interest rate	1.14%
Expected life	1 years
Expected volatility	168.16%
Fair value per option	\$0.03

Volatility was determined based on the Company's historical share prices.

f) Contributed surplus

	March 31, 2013	December 31, 2012
	\$	\$
Balance, beginning of period	1,135,960	1,048,656
Finders options (note 11(b)(iv))	-	93,657
Finders options exercised (note 11(b))	-	(6,353)
Balance, end of period	1,135,960	1,135,960

g) Per share data

Basic earnings per share are calculated based on the weighted average number of shares outstanding during the period. The treasury stock method is used for the calculation of diluted loss per share. Under this method, it is assumed that proceeds from the exercise of dilutive securities are used by the Company to repurchase Company shares at the average price during the period. All warrants, finders options and stock options have been excluded from the calculation of diluted shares outstanding as they would be anti-dilutive due to the loss position of the Company.

12 Restatement

During the preparation of the December 31, 2012 financial statements, it was determined that the Company's prior year financial statements required correction for the following reasons:

Previously, the Company had not made provisions for shareholder indemnity liability and Part XII.6 taxes payable relative to flow through shares issued in 2009 and 2010. The summary of the adjustments to the March 31, 2012 financial statements is as follows:

December 31, 2011	As previously reported	Adjustments	As restated
	\$	\$	\$
Accounts payable and accrued liabilities	2,333,903	20,839	2,354,742
Shareholder indemnity	-	181,020	181,020
General and administrative expense	1,229,864	125,579	1,355,443
Opening deficit	9,786,167	76,280	9,862,447
Deficit	11,763,223	201,859	11,965,082

14 Related party transactions

Related party transactions not disclosed elsewhere in these financial statements are as follows:

a) The following amounts are due from related parties:

	March 31, 2013	December 31, 2012
	\$	\$
Note receivable from officer (i)	239,781	238,164
Fair value allowance (ii)	(216,515)	(216,515)
Net note receivable	23,266	21,649
Advance fees (iii)	6,529	6,529
	29,795	28,178

(i) A promissory note was issued to an officer of the Company bearing interest at 3% per annum and there is no fixed maturity date, unless the officer's employment is terminated or he is petitioned into bankruptcy wherein the note and accrued interest becomes immediately payable. The note is secured by 393,000 common shares of the Company which had a fair value of \$23,580 at March 31, 2013 (December 31, 2012 - \$23,580).

(ii) The fair value allowance was initially determined on December 31, 2008 based on the market value of the secured shares. During the three months ended March 31, 2013, there was no additional allowance provided to the estimated fair value of the 393,000 common shares held as security as fair value did not exceed the carrying amount (December 31, 2012 - \$nil).

(iii) During the year ended December 31, 2008, a director was advanced \$59,473 in relation to efforts to finance and advance the Company's drilling technology. At March 31, 2013 \$6,529 (December 31, 2012 - \$6,529) remains outstanding. There is no guarantee that such efforts will be successful and if such efforts are not successful, the full balance will be repaid. The original repayment date of December 31, 2010 has been extended to December 31, 2013.

b) Additional related party transactions not disclosed elsewhere in these financial statements are as follows:

(i) Aggregate fees of \$3,150 (March 31, 2012 - \$7,500) were charged by directors of the Company. Of this amount \$3,150 (March 31, 2012 - \$7,500) was recorded in the statement of comprehensive loss.

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

- (ii) Aggregate fees of \$12,000 (March 31, 2012 - \$12,000) were charged by a U.S. corporation, which is owned and controlled by an officer and a director of the Company for costs it incurred for operation of the Company's U.S. properties. Of this amount \$12,000 (March 31, 2012 - \$12,000) was recorded in the statement of comprehensive loss.
- (iii) Aggregate fees of \$8,514 (March 31, 2012 - \$14,764) were charged by corporations, which are owned and controlled by other equity investors in PRI, and were all recorded as general and administrative costs.
- (iv) Included in accounts payable at March 31, 2013 was \$3,252 owing to related parties of the Company (December 31, 2012 - \$87,943).

15 Commitments

- a) On January 15, 2012, the Company entered into a lease agreement with a related party for the lease of office space. Under a lease agreement, the Company has committed to monthly payments of \$2,771 for the lease of its office space until January 31, 2015.
- b) The Company has entered into various vehicle loan agreements with total annual principal repayments for fiscal years 2013 through to 2015 as follows: \$24,688, \$26,110 and \$15,868.
- c) The Company raised capital through the issuance of flow through shares in 2009, 2010 and 2011 which provided indemnity to the subscriber for additional taxes payable if the Company was unable to, or failed to, renounce the qualifying expenditures as agreed. The Company was not able to spend \$824,338 of the flow through funds raised. The Company is exposed to costs for the indemnification of the subscribers. The Company has estimated a potential liability on the amount of \$321,497 at March 31, 2013 (December 31, 2012 - \$321,497). The Company has also estimated a potential liability for penalties and taxes on the amounts of \$39,320 in 2012 (December 31, 2011 - \$35,348, January 1, 2011 - \$ 20,839) included in accounts payable and accrued liabilities. The accrued amount is subject to measurement uncertainty due to the tax filing positions of the subscribers, their tax rates and the amount of personal taxes that may be payable and the interpretation of the indemnity agreement, which will not be known until potentially affected subscribers are reassessed for their tax positions by the Canada Revenue Agency and these amounts become known to the Company.

Emerald Bay Energy Inc.

Cash interest paid	30,907	48,773

17 Financial risk management

The Board of Directors oversees managements' establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

(a) Fair values

The Company's financial instruments consist of cash and cash equivalents, short-term investments, trade and other receivables, share subscription receivable, due from related parties, accounts payable and accrued liabilities, the shareholder indemnity, the related party loan, the convertible related party debt, the current portion of long-term debt and the long-term debt.

Financial Instrument	Classification	Carrying Value \$	Fair Value \$
Cash and cash equivalents	Fair value through profit and loss	361,305	361,305
Short-term investments	Fair value through profit and loss	50,800	50,800
Trade and other receivables	Loans and receivables	504,939	504,939
Share subscription receivable	Loans and receivables	40,000	40,000
Due from related parties	Loans and receivables	29,795	29,795
Accounts payable and accrued liabilities	Other financial liabilities	2,881,309	2,881,309
Shareholder indemnity	Other financial liabilities	321,497	321,497
Related party loan	Other financial liabilities	1,152,662	1,152,662
Convertible related party debt	Other financial liabilities	53,340	53,340
Current portion of long-term debt	Other financial liabilities	25,036	25,036
Long-term debt	Other financial liabilities	35,587	35,587

The significance of inputs used in making fair value measurements are examined and classified according to a fair value hierarchy. Fair values of assets and liabilities included in Level 1 are

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include valuations using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

At March 31, 2013, the Company's cash and cash equivalents and short term investments have been subject to Level 1 valuation.

(b) Credit risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from joint venture partners and oil and natural gas marketers.

Virtually all of the Company's trade and other receivables are from companies in the oil and gas industry and are subject to normal industry credit risks. Credit risks arise principally from the amounts owing to the Company from oil and natural gas marketers and joint venture partners. Management does not believe that any significant concentration of trade and other receivables exists that will result in any loss to the Company based on past payment experience. Receivables from petroleum and natural gas marketers are normally collected on the 25th day of the month following production. The Company's policy to mitigate credit risk associated with these balances is to establish relationships with large marketers. However, the receivables are from participants in the petroleum and natural gas sector and collection of the outstanding balances is dependent on industry factors such as commodity price fluctuations and escalating costs. The Company does not typically obtain collateral from petroleum and natural gas marketers or others in the event of non-payment.

A provision for doubtful accounts of \$nil has been recorded at March 31, 2013 (March 31, 2012 – recovery of bad debt expense of \$15,000).

Cash and cash equivalents consist of cash bank balances held in both interest and non-interest bearing accounts. The Company manages credit exposure of cash by selecting financial institutions with high credit ratings.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At March 31, 2013, the Company's maximum exposure to liquidity risk is the total current liabilities of \$4,530,026 (December 31, 2012 - \$4,345,082).

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

The current liabilities and commitments are due as follows:

Accounts payable and accrued liabilities	2,881,309	Due within 90 days
Related party loan (note 9)	1,152,662	Maturity date of August 15, 2013
Convertible related party debt (note 10)	53,340	Maturity date of December 31, 2013
Current portion of long-term debt (note 15(b))	25,036	Due within 12 months
Long-term debt (note 15(b))	35,587	Due within 36 months
Shareholder indemnities (note 15(c))	321,497	Due on demand

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To achieve this objective, the Company prepares annual capital expenditure budgets, which are regularly monitored and updated as considered necessary. Further, the Company utilizes authorizations for expenditures on both operated and non operated projects to further manage capital expenditures. The Company also attempts to match its payment cycle with collection of oil and natural gas revenue on the 25th of each month.

(d) Market risk

Market risk is the risk that changes in market prices, such as commodity prices, foreign exchange rates and interest rates will affect the Company's loss or the value of the financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximizing returns.

(i) Commodity price risk:

Commodity price risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for oil and natural gas are impacted by not only the relationship between the Canadian and United States dollar but also world economic events that dictate the levels of supply and demand. All of the Company's oil and gas production is sold at spot rates exposing the Company to the risk of price movements.

During 2010, the Company entered into a commodity call option effective from January 1, 2012 to December 31, 2012 at a strike price of USD \$90.00 per BBL. On February 2, 2012, the Company terminated the commodity call option for consideration of \$116,114 and

Emerald Bay Energy Inc.

Notes to the Financial Statements

For the three months ended March 31, 2013

(unaudited)

recognized an unrealized gain of \$161,770 to reverse the financial contract liability recorded at December 31, 2011.

A 10% increase or decrease in the commodity price throughout the period would result in approximately a \$2,300 increase or decrease in net operating loss for the period ended March 31, 2013, after holding operating expenses constant and increasing or decreasing royalties accordingly.

(ii) Currency risk:

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and the United States and a portion of its expenses are incurred in US dollars. The Company does not hedge its exposure to fluctuations in the exchange rate. Future changes in exchange rates could have a material effect on the Company's business including its intended capital plans, its financial condition and results of operations.

Certain of the Company's financial instruments are exposed to fluctuations in the US dollar, including cash and cash equivalents, trade and other receivables and accounts payable and accrued liabilities. As at March 31, 2013, an increase or decrease of 10% to the foreign exchange rate between the US dollar and the Canadian dollar applied to the average level of US denominated cash and cash equivalents would have had approximately a \$38,900 impact on the Company's comprehensive loss for the period.

(iii) Interest rate risk:

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. As at March 31, 2013, all of the Company's debt, including the related party loan and the convertible related party debt, bears fixed interest rates and accordingly, is not subject to market interest rate fluctuations.

The Company has no interest rate swaps or financial contracts in place as at or during the three months ended March 31, 2013.

(e) Capital management

The Company's capital consists of shareholders' deficit, the related party loan, the convertible related party debt and working capital. The Company will adjust its capital structure to manage its current and future debt, drilling programs and potential corporate acquisitions through the

issuance of shares, sourcing additional debt financing and adjustments to capital spending. The Company's objective for managing capital is to maximize long-term shareholder value by ensuring adequate capital to achieve the Company's objectives. The Company is not subject to any external capital requirements.

Management reviews its capital management approach on an ongoing basis and believes its current approach is reasonable given the size of the Company. There has been no change in management's approach to capital management during the period.

19 Subsequent events

Subsequent to March 31, 2013, the Company entered into the following transactions:

- a) On April 3, 2013, the Company closed a private placement through the issuance of 7,950,000 units (the "Units") for gross proceeds of \$397,500 (\$0.05/Unit). Each Unit consisted of one common share of the Company and one common share purchase warrant (the "Warrant"). Each full Warrant entitles the holder to purchase one additional common share of the Company for \$0.10/common share for a period of 12 months from the issuance of the Units. The Company incurred cash share issue costs of \$32,250 and issued an aggregate of 645,000 finder's options to those who facilitated the private placement. Each finder's option is exercisable into one Unit of the Company on the same terms and conditions as those received by the subscribers under the private placement.
