Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

1 Reporting entity and going concern

Emerald Bay Energy Inc. (the “Company”) was incorporated under the Business Corporations Act of Alberta on May 9, 1997 and is listed on the TSX Venture exchange. The Company is engaged in the exploration for and development of petroleum and natural gas properties principally in Alberta and Texas. The Company is listed on the TSX Venture Exchange under the symbol “EBY.V”. The Company’s registered head office is located at #3A, 4015 – 1 Street South East, Calgary, Alberta, Canada T2G 4X7.

At March 31, 2014, the Company had not yet achieved profitable operations, had accumulated a deficit of \$16,084,539 since its inception (December 31, 2013 - \$15,929,544), had negative cash flows from operations of \$89,396 (December 31, 2013 - \$19,622) and had a working capital deficiency of \$4,752,397 (December 31, 2013 - \$4,445,030) (defined as current assets less current liabilities), and expects to incur further losses in the development of its business. The ability to continue as a going concern is dependent on obtaining continued financial support, completing public equity financing, or generating profitable operations in the future. Management is committed to raising additional capital to meet its exploration and operating obligation, however, additional equity financing is subject to the global financial markets and economic conditions, which have recently been disrupted and are volatile, and the debt and equity markets, which have been distressed, particularly for junior petroleum and natural gas companies. All of these factors, together with weak natural gas prices and the current unstable economic conditions, indicate the existence of material uncertainties related to events or conditions that may cast significant doubt as to whether the Company can continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business. These Interim Consolidated Financial Statements do not reflect the adjustments to the carrying value of assets and liabilities, the reported revenues and expenses, and the balance sheet classifications that would be necessary if the going concern assumption was not appropriate. Any adjustments necessary to the Interim Consolidated Financial Statements if the Company ceases to be a going concern could be material. These Interim Consolidated Financial Statements are dated May 30, 2014.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements
For the three months ended March 31, 2014
(unaudited)

2 Basis of presentation

a) Statement of compliance:

The interim condensed consolidated financial statement have been prepared in accordance with International Accounting Standards (“IAS”) 34 – “*Interim Financial Reporting*” as issued by the International Accounting Standards Board (“IASB”) using the accounting policies and methods of computation disclosed in the Company’s audited consolidated financial statements for the year ended December 31, 2013. These interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2013 and exclude certain disclosures required to be included in annual consolidated financial statements.

a) Judgments and estimates:

In preparing these interim condensed consolidated financial statements, management makes judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited annual consolidated financial statements as at and for the year ended December 31, 2013.

3 Recent accounting pronouncements

The following standard has been issued and is effective for annual periods beginning on or after January 1, 2018. The Company has not yet begun the process of assessing the impact that the new standard will have on its Consolidated Financial Statements:

IFRS 9 – “Financial Instruments”, which is the result of the first phase of the IASB’s project to replace IAS 39 – “Financial Instruments: Recognition and Measurement”. The new standard replaces the current multiple classification and measurement models for financial assets and liabilities with a single model that has only two classification categories: amortized cost and fair value.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

(unaudited)

4 Equity investment in PRI

The Company continued to have a 25% ownership interest in Production Resources Inc ("PRI") of 25%. The Company has accounted for the investment using the equity method.

During the year ended December 31, 2011, the Company advanced an additional \$215,906 to PRI, which was deemed to form part of the value of the Company's net investment in PRI. During the year ended December 31, 2013, PRI repaid the advanced funds in full, including accrued interest of \$29,135; the intercompany portion was eliminated on consolidation. The Company maintains a 25% ownership in PRI based on the 25% ownership in the share capital of PRI.

The investment in PRI as at March 31, 2014 is as follows:

	CDN \$
Net investment, December 31, 2012	568,306
Proportionate share of income for the period	(19,722)
Repayment of advanced funds	(215,906)
Net investment, December 31, 2013	332,678
Proportionate share of income for the period	42,782
Net investment, March 31, 2014	375,460

Summarized financial information for PRI as at and for the three months ended March 31, 2014, is presented in the following table. The amounts have been translated from PRI's reporting currency of USD to CAD at the March 31, 2014 exchange rate of \$1.1055 and the average rate for the three months ended March 31, 2014 of \$1.1036:

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

During the year ended December 31, 2013, the Company disposed of various US oil and gas interests to PRI for proceeds of \$172,882. The proceeds received were greater than the carrying amount of the assets of \$28,507, which was recorded to contribute surplus.

6 Exploration and evaluation and other intangible assets

	E&E assets
	\$
Balance, December 31, 2012	397,668
Additions	849,813
Revisions in decommissioning liability	(13,093)
Foreign currency translation	942
Balance, December 31, 2013	1,235,329
Additions	73,367
Revisions in decommissioning liability	1,128
Foreign currency translation	48,665
Balance, March 31, 2014	1,358,489

Exploration and evaluation ("E&E") assets consist of the Company's exploration projects which are pending the determination of technological feasibility and commercial viability. As at March 31, 2014, the Company incurred an amount of \$73,367 on E&E expenditures (December 31, 2013 - \$849,813). The additions represent the acquisition of undeveloped land and drilling activity within Texas. These E&E assets will be transferred to property and equipment when technological feasibility and commercial viability have been established. As at March 31, 2014, the Company did not identify any indicators of impairment on its E&E properties.

7 Decommissioning obligations

The Company's decommissioning obligations result from its ownership interest in oil and natural gas assets including well sites and gathering systems. The total decommissioning obligation is estimated based on the Company's net ownership interest in all wells and facilities, estimated costs to reclaim and abandon these wells and facilities and the estimated timing of the costs to be incurred in future years. The Company has estimated the net present value of the decommissioning obligations to be \$608,038 as at March 31, 2014 (December 31, 2013 - \$559,751) based on an undiscounted total future liability of \$739,397 (December 31, 2013 - \$700,853). These payments are expected to be made over the next 2 to 25 years. The obligations have been calculated using an inflation rate of 2% and a discount factor, being the risk-free rate related to the liability, of 1.07% - 2.82% (December 31, 2013 - 2% and 1.68% - 2.77%, respectively).

8 Loan

On June 15, 2012, a corporation owned by a party who has a common significant shareholding (the "Lender") advanced \$1,500,000 to the Company under a loan agreement (the "Original Loan Agreement") with a maturity date of August 15, 2013. Interest on the loan is 10% per annum, payable monthly, on the outstanding principal amount. On August 15, 2013, the Original Loan with an outstanding balance of \$1,200,000 was cancelled, and a new loan in the amount of \$1,200,000 was issued with a maturity date of August 15, 2014 (the "New Loan"). During the three months ended March 31, 2014, the Lender advanced an additional \$100,000 to the Company under the same terms as the New Loan. Included in the New Loan is a conversion feature, which at the option of the Lender, and subject to regulatory approval, the entire principal amount of the New Loan, or any portion outstanding, may be converted to shares in the Company at a price of \$0.05 per common share until August 15, 2014. As of March 31, 2014 and up to the date of these Interim Consolidated Financial Statements, the conversion feature had not yet received regulatory approval.

The Company may, at any time, repay the loan in full without notice or penalty. If the Company is in default of the requirements included in the New Loan agreement or the Lender believes the Company's ability to repay the loan is impaired, the Lender may demand repayment of the loan or accelerate the date for payment. During the three months ended March 31, 2014, the Company incurred interest of \$30,000 (December 31, 2013 - \$120,000).

Pursuant to the Original Loan Agreement, the Company issued to the Lender 5,000,000 share purchase warrants (the "Original Warrants"). The Original Warrants were valued at \$147,195 and were treated as a transaction cost, and accordingly were netted against the principal balance of the loan, which was accreted back up to the principal balance at the maturity date. The accretion of the Original Warrants were recorded as a non-cash finance expense in the profit or loss. On August 15, 2013, the Original Warrants expired unexercised. Pursuant to the New Loan agreement, the Company issued to the Lender 5,000,000 share purchase warrants (the "New Warrants"). Each New Warrant is exercisable into one common share of the Company at a price of

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

\$0.05 per common share until the expiry date of August 15, 2014. As of March 31, 2014, the New Warrants had not yet received regulatory approval and therefore will not be valued until such time as approval is received. Subsequent to March 31, 2014, regulatory approval was received.

	Loan \$
Balance, December 31, 2012	1,121,565
Accretion of transaction cost	78,435
Balance, December 31, 2013	1,200,000
Receipt of additional funds	100,000
Balance, March 31, 2014	1,300,000

Security for the loan consists of a \$1,500,000 promissory note plus interest at the rate of 10% per annum, compounded monthly, a General Security Agreement in favour of the Lender to include a specific assignment of production proceeds, and security over the US assets of the Company. The Lender has required the Company to submit to them certain reports including monthly production reports.

9 Convertible debt

On January 1, 2012, the Company entered into a loan agreement (the "Loan Agreement") with a corporation owned and controlled by a party who is also a significant shareholder of the Company (the "Lender") whereby the Company received a \$150,000 USD loan with a maturity date of one year. Pursuant to the Loan Agreement, if it is mutually agreed upon by both parties, the maturity date can be extended by an additional year. On January 1, 2013 and January 1, 2014, it was mutually agreed upon between the Lender and the Company to extend the loan under the same terms for an additional year. During the three months ended March 31, 2014, the Lender advanced an additional loan amount of \$100,000 USD to the Company under the same terms as the Loan Agreement. The proceeds of the loan were used to continue the Company's exploration program in Texas. Interest on the loan is 12% per annum, payable monthly, on the outstanding principal amount and compounds monthly. During the three months ended March 31, 2014, the Company incurred interest of \$4,866 (December 31, 2013 - \$19,726).

Security for the loan consists of a \$150,000 promissory note and monthly production from certain Texas assets equivalent to the principal portion of the loan and any unpaid interest.

At the option of the Lender, and subject to regulatory approval, the entire principal amount, or any portion outstanding, may be converted to shares in the Company with a discount of 25% to the market trading price at the time of conversion, at any time during the term. Accordingly, on the issuance and extension, the loan was split between the liability and the conversion feature,

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

which was recorded on the statement of financial position as a derivative financial liability. The liability portion was determined by subtracting the fair value of the conversion feature from the principal amount of the loan. At January 1, 2013, the \$150,000 loan resulted in \$20,000 being classified as a liability and \$130,000 being classified as a derivative financial liability. The fair value of the conversion feature was estimated at every statement of financial position date with changes in the fair value estimate between periods recognized in profit or loss as finance expense. The liability portion was measured at amortized cost and was accreted up to the principal balance at the maturity date. The accretion was expensed as a finance expense in the statement of comprehensive loss.

At December 31, 2013, the loan had matured and the initial derivative liability that was recognized was removed and recorded as a gain on the derecognition of the derivative financial liability in the statement of comprehensive loss. On the January 1, 2014 extension, the terms of the conversion feature were changed to establish the conversion price to be the market price of the Company's shares on January 1, 2014. All other terms and conditions remain the same. As of March 31, 2014, and up to the date of these Interim Consolidated Financial Statements, the conversion feature on the January 1, 2014 extension had not yet received regulatory approval.

The following table summarizes the accounting of the promissory note in USD:

	Liability	Derivative Financial Liability	Total
	\$	\$	\$
Balance, at December 31, 2012	150,000	-	150,000
Renewal of debt	(130,000)	130,000	-
Accretion of debt	130,000	-	130,000
(Gain) on derivative financial liability	-	(130,000)	(130,000)
Balance, December 31, 2013	150,000	-	150,000
Receipt of additional funds	100,000	-	100,000
Balance, March 31, 2014	250,000	-	250,000

The fair value of the derivative financial liability was determined using the Black-Scholes valuation model and the following assumptions were used:

	January 1, 2013
Risk-free interest rate	1.17%
Expected life (years)	1 year
Expected volatility	165.11%
Market price	0.040
Conversion price	0.030

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

(unaudited)

10 Share capital

a) Authorized

Unlimited number of common shares with voting rights
Unlimited number of preferred shares, issuable in series

b) Issued

	Number of Common Shares	Amount \$
Balance, December 31, 2012	132,721,689	9,806,332
Fair value reallocation on expiry of warrants (note 10(c))	-	574,096
Private placement (i)	7,950,000	397,500
Value of warrants issued pursuant to private placement (i)	-	(141,188)
Share issue costs (i)	-	(35,516)
Balance, December 31, 2013 and March 31, 2014	<u>140,671,689</u>	<u>10,601,224</u>

- (i) On April 3, 2013, the Company completed a private placement (“Placement A”), issuing 7,950,000 units. Each unit under Placement A was issued at \$0.05 for total proceeds of \$397,500. Each unit consists of one common share of the Company and one share purchase warrant (“Warrant A”). Each Warrant A entitles the holder to purchase one additional common share of the Company at \$0.10 per share, exercisable for 1 year from the original issue date. The Company has allocated \$141,188 of the unit value to warrants (note 10(c)).

Pursuant to Placement A, the Company incurred \$38,259 in cash share issue costs, of which \$24,672 was allocated to share capital and \$13,587 was allocated to warrants. 645,000 finders options were issued, respectively, valued at \$16,818 (note 10(e)), of which \$10,844 was allocated to share capital and \$5,974 was allocated to warrants.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements
For the three months ended March 31, 2014
(unaudited)

c) Warrants

Warrants to acquire common shares outstanding at March 31, 2014 are as follows:

	Number of warrants issued and exercisable	Amount \$	Weighted average exercise price \$	Weighted average Remaining life (years)
Balance, December 31, 2012	59,995,730	1,274,721	0.10	0.06
Expiry of share purchase warrants	(25,315,730)	(574,096)	0.10	-
Expiry of share purchase warrants (note 8)	(5,000,000)	(147,195)	0.10	-
Share purchase warrants issued (note 10(b)(i))	7,950,000	141,188	0.10	0.06
Share issue costs (note 10(b)(i))	-	(19,561)	-	-
Balance, December 31, 2013 and March 31, 2014	37,630,000	675,057	0.10	0.06

The fair value of the share purchase warrants granted during the year ended December 31, 2013 were estimated at the grant date using the Black-Scholes option pricing model and have been credited to warrants within shareholders' equity. A weighted average of the assumptions used in the calculation is noted below:

	2013
Risk-free rate	1.01%
Expected life	1.00 years
Expected volatility	140.95%
Fair value per warrant	\$0.018

Volatility was determined based on the Company's historical share prices.

d) Stock options

The Company established a share option plan (the "Plan") for the benefit of officers, directors, employees and consultants of the Company. Under the Plan, the number of common shares to be reserved and authorized for issuance pursuant to options granted under the Plan cannot exceed 10% of the total number of issued and outstanding shares of the Company. The term, the vesting period and the exercise price are determined at the discretion of the Board of Directors. However, the maximum option term shall not exceed five years.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

During the three months ended March 31, 2014, there were no stock options granted, exercised, cancelled or stock options that expired unexercised. The following table summarizes information about the Company's stock options outstanding at March 31, 2014:

	March 31, 2014		December 31, 2013	
	Number of options	Weighted Average Exercise price \$	Number of options	Weighted Average Exercise price \$
Stock options, beginning of period	14,030,000	0.08	7,380,000	0.10
Granted	-	-	6,700,000	0.05
Cancelled	-	-	(50,000)	0.10
Stock options outstanding, end of period	14,030,000	0.08	14,030,000	0.08

The total stock options outstanding at March 31, 2014 are as follows:

Exercise prices (\$)	Options outstanding	Weighted average remaining term (years)	Weighted average exercise price (\$)
0.05	7,330,000	1.95	0.10
0.10	6,700,000	4.55	0.05

As at March 31, 2014, 13,780,000 stock options have vested and are exercisable and 250,000 stock options have not yet vested.

The terms of the granted stock options granted during the year ended December 31, 2013 are consistent with the Plan and are all exercisable at \$0.10 per option and expire 5 years after the grant date. The fair value of the options granted were estimated as at the grant date using the Black-Scholes option pricing model. The weighted average assumptions used in the calculation are noted below:

	2013
Risk-free interest rate	1.66%
Expected life	5 years
Expected volatility	389.29%
Fair value per option	\$0.04
Forfeiture rate	9.23%
Dividend	-

During the three months ended March 31, 2014, the Company recognized share-based payment expense of \$4,929 in the statement of comprehensive loss (March 31, 2013 - \$nil). Volatility was determined based on the Company's historical share prices.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

e) Finders Options

During the year ended December 31, 2013, the Company issued 645,000 Finders Options, respectively, to the those who facilitated Placement A (note 10(b)(i)). Each Finders Option is exercisable into one unit consisting of one common share and one common share purchase warrant ("Finder Warrant") of the Company at \$0.05 per unit. Each Finder Warrant is exercisable into one common share of the Company at \$0.10 per common share. The Finders Options expire one year from the original grant date. The Finders Options were valued at \$16,818 (note 10(b)(i)). The warrant embedded within the Finders Options were not separately valued.

The following table summarizes information about the Company's Finder Options outstanding at March 31, 2014:

	March 31, 2014		December 31, 2013	
	Number of	Weighted Average	Number of	Weighted Average
	options	Exercise price	options	Exercise price
		\$		\$
Finders Options, beginning of period	645,000	0.05	3,113,000	0.05
Granted (note 10(b)(i))	-	-	645,000	0.05
Expired	-	-	(3,113,000)	(0.05)
Finders Options outstanding, end of period	645,000	0.05	645,000	0.05

The Finders Options issued during the year ended December 31, 2013 were valued at an aggregate of \$16,818 (note 10(b)(i)). The fair value of the Finders Options granted were estimated as at the grant date using the Black-Scholes option pricing model. The assumptions used in the calculation are noted below:

	2013
Risk-free interest rate	1.01%
Expected life	1 year
Expected volatility	140.95%
Fair value per option	0.03

Volatility was determined based on the Company's historical share prices.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

(unaudited)

f) Contributed surplus

	March 31, 2014	December 31, 2013
	\$	\$
Balance, beginning of period	1,664,311	1,135,959
Share-based payment expense	4,929	364,339
Finders options (note 10(b)(i))	-	16,818
Expiry of share purchase warrants (note 8)	-	147,195
Balance, end of period	1,669,240	1,664,311

g) Per share data

Basic earnings per share are calculated based on the weighted average number of shares outstanding during the period. The treasury stock method is used for the calculation of diluted loss per share. Under this method, it is assumed that proceeds from the exercise of dilutive securities are used by the Company to repurchase Company shares at the average price during the period. All warrants, finders options and stock options have been excluded from the calculation of diluted shares outstanding as they would be anti-dilutive due to the loss position of the Company.

11 Income tax

Significant components of the deferred tax liability are as follows:

	March 31, 2014	December 31, 2013
	\$	\$
Property and equipment	409,606	438,484
Non-capital loss carried forward	1,756,238	1,696,446
Decommissioning liabilities	152,010	139,938
Share issue costs	30,817	41,505
Equity investments	(46,933)	(14,215)
Flow-through share indemnity liability	83,388	83,388
Scientific research and experimental development	150,663	150,663
Financing fees	32,250	34,400
Investment tax credits	195,000	195,000
Deferred tax asset not recognized	2,763,039	2,765,609

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements
For the three months ended March 31, 2014
(unaudited)

The Company has estimated tax pools totaling:

	Rate of Claim	March 31, 2014
		\$
Canadian exploration expenditures	100%	1,204,141
Canadian oil and gas property expense	10%	27,087
Foreign development expenditures	Various	958,937
Undepreciated capital cost	Various	1,291,343
Share issue costs	20%	123,268
Financing fee	20%	129,000
Scientific research and experimental development		602,650
Non-capital loss carry forward		7,024,951
		11,361,377

The accumulated non-capital loss carry forwards expire between 2014 and 2034.

12 Related party transactions

Related party transactions not disclosed elsewhere in these Consolidated Financial Statements are as follows:

a) The following amounts are due from related parties:

	March 31, 2014	December 31, 2013
	\$	\$
Note receivable from officer (i)	246,336	244,719
Fair value allowance (ii)	(240,789)	(240,789)
Net note receivable	5,547	3,930
Advance fees (iii)	6,529	6,529
	12,076	10,459

- (i) A promissory note was issued to an officer of the Company bearing interest at 3% per annum and there is no fixed maturity date, unless the officer's employment is terminated or he is petitioned into bankruptcy wherein the note and accrued interest becomes immediately payable. The note is secured by 393,000 common shares of the Company which had a fair value of \$3,930 at March 31, 2014 (December 31, 2013 - \$3,930).
- (ii) The fair value allowance was initially determined on December 31, 2013 based on the market value of the secured shares as the carrying value of the promissory note exceeded the fair value of the 393,000 common shares held as security.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

- (iii) During the year ended December 31, 2008, a director was advanced \$59,473 in relation to efforts to finance and advance the Company's drilling technology. At March 31, 2014 \$6,529 (December 31, 2013 - \$6,529) remains outstanding. There is no guarantee that such efforts will be successful and if such efforts are not successful, the full balance will be repaid. The original repayment date of December 31, 2010 has been extended to December 31, 2014.

- b) Additional related party transactions not disclosed elsewhere in these Consolidated Financial Statements are as follows:
 - (i) Aggregate fees of \$nil (March 31, 2013 - \$3,150) were charged by directors of the Company, all of which was recorded in the statement of comprehensive loss.

 - (ii) Aggregate fees of \$nil (March 31, 2013 - \$12,000) were charged by a U.S. corporation, which is owned and controlled by an officer and a director of the Company for costs it incurred for operation of the Company's U.S. properties, all of which was recorded in the statement of comprehensive loss.

 - (iii) Aggregate fees of \$8,616 (March 31, 2013 - \$8,514) were charged by corporations, which are owned and controlled by other equity investors in PRI, and were all recorded as general and administrative costs.

 - (iv) Included in accounts payable at March 31, 2014 was \$140,416 owing to officers of the Company (December 31, 2013 - \$120,574).

All related party transactions are in the normal course of operations and have been measured at the agreed exchange amounts, which is the amount of consideration established and agreed to by the related parties and which is similar to those negotiated with third parties.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

13 Commitments

- a) On January 15, 2012, the Company entered into a lease agreement with a related party for the lease of office space. Under a lease agreement, the Company has committed to monthly payments of \$2,771 for the lease of its office space until January 31, 2015.
- b) The Company has entered into various vehicle loan agreements with total annual principal repayments for fiscal years 2014 and 2015 as follows: \$26,109 and \$15,869.
- c) The Company raised capital through the issuance of flow through shares in 2009, 2010 and 2011 which provided indemnity to the subscriber for additional taxes payable if the Company was unable to, or failed to, renounce the qualifying expenditures as agreed. The Company was not able to spend \$824,338 of the flow through funds raised. The Company is exposed to costs for the indemnification of the subscribers. The Company has estimated a potential liability on the amount of \$331,551 at March 31, 2014 (December 31, 2013 - \$331,551). The Company has also estimated a potential liability for penalties and taxes on the amounts of \$45,897 (December 31, 2013 - \$45,897) and is included in accounts payable and accrued liabilities. The accrued amount is subject to measurement uncertainty due to the tax filing positions of the subscribers, their tax rates and the amount of personal taxes that may be payable and the interpretation of the indemnity agreement, which will not be known until potentially affected subscribers are reassessed for their tax positions by the Canada Revenue Agency and these amounts become known to the Company.

14 Financial risk management

The Board of Directors oversees managements' establishment and execution of the Company's risk management framework. Management has implemented and monitors compliance with risk management policies. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to market conditions and the Company's activities.

(a) Fair values

The Company's financial instruments consist of cash and cash equivalents, short-term investments, trade and other receivables, due from related parties, accounts payable and accrued liabilities, the shareholder indemnity, the loan, the convertible debt, and long-term debt. The fair values of the Company's financial instruments approximate the carrying values.

The significance of inputs used in making fair value measurements are examined and classified according to a fair value hierarchy. Fair values of assets and liabilities included in Level 1 are

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

determined by reference to quoted prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include valuations using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

At March 31, 2014, the Company's cash and cash equivalents and short-term investments have been subject to Level 1 valuation.

(b) Credit risk:

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from joint venture partners and oil and natural gas marketers.

Virtually all of the Company's trade and other receivables are from companies in the oil and gas industry and are subject to normal industry credit risks. Credit risks arise principally from the amounts owing to the Company from oil and natural gas marketers and joint venture partners. Management does not believe that any significant concentration of trade and other receivables exists that will result in any loss to the Company based on past payment experience. Receivables from petroleum and natural gas marketers are normally collected on the 25th day of the month following production. The Company's policy to mitigate credit risk associated with these balances is to establish relationships with large marketers. However, the receivables are from participants in the petroleum and natural gas sector and collection of the outstanding balances is dependent on industry factors such as commodity price fluctuations and escalating costs. The Company does not typically obtain collateral from petroleum and natural gas marketers or others in the event of non-payment.

At March 31, 2014, the Company's trade and other receivables have been aged as follows:

	March 31, 2014	December 31, 2013
Days outstanding	\$	\$
0-30 days	16,880	67,653
31-60 days	1,276	6,204
61-90 days	929	56,561
Greater than 90 days	406,008	330,669
Total	425,093	461,087

\$406,008 of the Company's trade and other receivables are considered past due. However, the Company deems all amounts as collectible and as such, a provision for doubtful accounts has not been recorded at March 31, 2014 (December 31, 2013 - \$nil).

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

Cash and cash equivalents consist of cash bank balances held in both interest and non-interest bearing accounts. The Company manages credit exposure of cash by selecting financial institutions with high credit ratings.

(c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. At March 31, 2014, the Company's maximum exposure to liquidity risk is the total current liabilities of \$5,609,078 (December 31, 2013 - \$5,183,119).

The current liabilities and commitments are due as follows:

Accounts payable and accrued liabilities	3,672,676	Due within 90 days
Loan (note 8)	1,300,000	Maturity date of August 15, 2014
Convertible debt (note 9)	276,375	Maturity date of December 31, 2014
Current portion of long-term debt (note 13(b))	26,476	Due within 12 months
Long-term debt (note 13(b))	9,110	Due within 24 months
Shareholder indemnities (note 13(c))	333,551	Due on demand

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To achieve this objective, the Company prepares annual capital expenditure budgets, which are regularly monitored and updated as considered necessary. Further, the Company utilizes authorizations for expenditures on both operated and non-operated projects to further manage capital expenditures. The Company also attempts to match its payment cycle with collection of oil and natural gas revenue on the 25th of each month.

(d) Market risk

Market risk is the risk that changes in market prices, such as commodity prices, foreign exchange rates and interest rates will affect the Company's loss or the value of the financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while maximizing returns.

(i) Commodity price risk:

Commodity price risk is the risk that the fair value or future cash flows will fluctuate as a result of changes in commodity prices. Commodity prices for oil and natural gas are impacted by not only the relationship between the Canadian and United States dollar but

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements

For the three months ended March 31, 2014

(unaudited)

also world economic events that dictate the levels of supply and demand. All of the Company's oil and gas production is sold at spot rates exposing the Company to the risk of price movements.

(ii) Currency risk:

The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Canada and the United States and a portion of its expenses are incurred in US dollars. The Company does not hedge its exposure to fluctuations in the exchange rate. Future changes in exchange rates could have a material effect on the Company's business including its intended capital plans, its financial condition and results of operations.

Certain of the Company's financial instruments are exposed to fluctuations in the US dollar, including cash and cash equivalents, trade and other receivables and accounts payable and accrued liabilities. As at March 31, 2014, an increase or decrease of 10% to the foreign exchange rate between the US dollar and the Canadian dollar applied to the average level of US denominated cash and cash equivalents would have had approximately a \$27,799 impact on the Company's comprehensive loss for the period.

(iii) Interest rate risk:

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. As at March 31, 2014, all of the Company's debt, including the loan and the convertible debt, bears fixed interest rates and accordingly, is not subject to market interest rate fluctuations.

The Company has no interest rate swaps or financial contracts in place as at or during the three months ended March 31, 2014.

(e) Capital management

The Company's capital consists of shareholders' deficit, the loan, the convertible debt and working capital. The Company will adjust its capital structure to manage its current and future debt, drilling programs and potential corporate acquisitions through the issuance of shares, sourcing additional debt financing and adjustments to capital spending. The Company's objective for managing capital is to maximize long-term shareholder value by ensuring adequate capital to achieve the Company's objectives. The Company is not subject to any external capital requirements.

Emerald Bay Energy Inc.

Notes to the Consolidated Financial Statements
For the three months ended March 31, 2014
(unaudited)

Management reviews its capital management approach on an ongoing basis and believes its current approach is reasonable given the size of the Company. There has been no change in management's approach to capital management during the period.

15 Segmented information

The Company's primary operations are limited to a single industry being the acquisition, exploration for, and development of petroleum and natural gas.

Product segmentation is as follows:

	Oil	Natural Gas	NGL's	Total
March 31, 2014 (\$)	3,066	24,048	32	27,146
March 31, 2013 (\$)	14,631	8,024	(19)	22,636

Geographical segmentation is as follows:

	Three months ended March 31, 2014 (\$)
